THE CHARLEROI MAIL

VOL XIX. NO 99. CHARLEROI, WASHINGTON CO., MONDAY, SEPTEMBER [illegible] TWO CENTS

FULL TEXT O INSTRUCTIONS FOR CONSERVATION OF POWER

Specific Directions As To Closing Hours and Other Details

ARE SUBJECT TO MODIFICATION

The full text of the restrictions of the use of electric current for light and power in the Pittsburg district, is published below. It should have a careful persual by every one interested and that means practically every citizen of Charleroi. The letter is from Mr. Kuhn, fuel administrator of the Pittsburg district and is sent out by H. B. Duncan, fuel administrator for Washington county. It bears out the schedule printed in the Mail on the 21st of September. but all the details are given below. The full text of the instructions are as follows.

TO County Administrators of Beaver, Fayette, Greene. Washington, and Westmoreland Counties.

In accordance with our telegram and with letter attached hereto, it is deemed advisable to extend the order issued from this office governing the opening of mercantile establishments of all kinds to include your County in the scope of this order Therefore, effective at as early a date as possible we request that the folowing instructions be put into effect in your County. so that the entire Pittsburg district will be on as near equitable basis as possible.

In the first place a rigid observance of theso-called "Lightless Night" order is necessary. This order, as you know, positively prohibits the use of artificial light of any kind for external or decorative purpose, including show of display windows, signs, etc. on Monday. Tuesday, Wednesday and Thursday nights and further expressly prohibits the use of artificial lights of any kind for show windows, signs or decorative lighting of any kind on each day of every week between the hours of sunrise and sunset This would also include mechanically operated advertising devices of any kind requiring electric or gas power for their operation.

In the Pittsburg district, the merchants in general are strictly observing this order and the only exemptions made are such lights as are required for safety purposes. The moving picture houses have been permitted to utilize sufficient light in front of their entrance ways to insure safety.

Recently the merchants in the City have agreed to go further than actually required under this order and have agreed to not use any artifisial window or display lighting on Sunday nights and this has resulted in still further saving of electric energy and fuel of all kind.

In addition to this "Lightless Night" order it has been found necessary to further curtail the use of artificial light for reasons which you will find set forth below, especially between the hours of 7:30 and 10:00 o'clock a. m. As the order now stands in the Pittsburg district and which became effective on Saturday morning, Sept. 21, are as follows:

First: The use of necessary light and power will remain unrestricted so far as possible in essential manufacturing plants throughout the district. We have classified printing houses as coming under this class.

Second: The use of light and power for residences and apartment dwellings of any kind, is permitted without restrictions. but all domestic users of light and power are requested to so far as possible, refrain from the use of light and power for the operation of cleaners, washing machines etc., until after 10 o'clock a. m. and further are urged to keep their use of light and power atall times on as conservative basis as possible.

Third: The use of necessary light and power in office buildings of all descriptions is permitted without restrictions, except that proprietors of all such buildings be requested to keep their elevator service at a minimum until after 10:00 a. m. each day. All tenents of such buildings not engaged in war essentials business, are requested to observe the 10:00 o'clock opening hour and all tenants of such buildings will be expected at all times to utilize as little artificial light as possible The managers of such buildings are requested to assist in effecting this conservation in every way possible.

Fourth: Department stores, retail and wholesale merchants stores, who have their work shops or repair rooms and stock rooms in connection with their stores, will be permitted to use the necessary ilght or power for the operation only of such room and for the operation of necessary office work and use of necessary elevators foor and use of necessary or outgoing freight or express deliveries during the restricted period .

Fifth: All retail or wholesale jobbing houses or stores of every nature which do not have work shops of repair rooms, will be expected to comply with this order in full.

Sixth: All wholesalers and retail hardware, printers' supplies or household furnishing goods stores of all kinds are requested to in every way comply with this order, except that sufficient power and light may be utilized for the purpose of receiving express or freight deliveries or necessary office work.

Seventh: Wholesale and retail grocery stores. market and butcher shops are permitted the unrestricted use of light and power but this does not include fruit stands, candy stores cigar or other small shops which do not have any regular shipping department.

Eighth: Retail drug stores are permitted the unrestricted use of light for the sale of drugs or druggists' supplies only.

Ninth: Barber shops are permitted to remain open without restriction except that they are requested to keep the use of artificial light at a minimum until after 10:00 A .M.

Continued on Page 2.

Dr. J. W. Hunter Called to Boston

Dr. J. W. Hunter received a telegram Sunday afternoon at 4 o'clock from the Medical Division of the United States Army, asking him to report at Boston as soon as possible, to give his services in military camps and assist in combatting the inroads being made by Spanish influenza in the various cantonments Dr. Hunter responded at once and at 7 o'clock was on his way east. He is a member of the Medical Volunteer Corps, which organization he joined last spring, in which he offers his services at any time he may be called upon to go. As the influenza is making such progress among the various military camps as to become alarming, army officers realized that the medical staff of the various cantonments must be increased at once, and consequently are summoning many of the volunteer physicians, who are responding in a splendid manner to this tour of duty.

Just how long Dr. Hunter will be retained in the east is not known as it will depend upon how promptly the malady can be gotten under control. In many camps hundredsof the men are ill from the trouble, with not a few death following in its wake. The government is doing everything possible to eradicate the trouble, which is particularly severe in the east, and halt its spread before it gets a hold on the cantonments in the west and south.

BULGARIA OUT OF WAR, SAYS REPORT

A telephone message from the Pittsburg newspapers to Might's news agency at noon today said that Bulgaria had unconditionally surrendered to the allied powers. The effect of this surrender will be to split the middle Europe plan of Germany and at the same time isolating Turkey. and exposing the eastern borders of Austria to invasion by the allied armies now operating with Slonica as a base. The moral effect of this victory will be far-reaching not only on the Teutons, but likewise on the armies of France. Belgium, Great Britain and the United States who are fighting on the western front.

"THE UNBELIEVER"

"The Unbeliever" will deliver its forceful sermon to thousands at the Majestic Theatre Wednesday and Thursday, two days, for the problem in "The Unbeliever" is one as old as time or thought. When death strides across the battlefield of life as well as war, the men lie upon the threshold of the hereafter, in their last moments do they come to a belief in God? "The Unbeliever" says they do.

In the beginning he was a cynic. He hated his fellow man. He doubted God and his mother's teachings. The time came when he lay wounded on the battlefield in the great war. On every side of him men lay dying. One atheist doubted God almost to the last breath, but found a change of heart as life's curtain rang down. And in the hospital ward. across from a German boy who was mortally wounded, he came to love even his enemy. His experiences in the great struggle teach him a new life.

"The Unbeliever" it is safe to say will make a sensation. It will attract not only the habitual patrons of motion picture theatres but those who attend only when some extraordinary production is shewn.

The picture was made in Quantico.

WINDOW DISPLAYS FOR LIBERTY LOAN

Messrs. William Vetter, George Clark, Paul Kimmins and Mr. Knight have been appointed as members of the National War Service Committee for Window Displays, by A. Arthur Lewis. of Monessen, who is chairman of the Monongahela Valley. The object of this committee is to solicit merchants in Charleroi to give over the use of one of their windows for making a display for the Fourth Liberty Loan. This display can embrace any original design the merchant may propose, with the use of battle relics and other objects of interests, as well as posters advertising the the Fourth Liberty Loan.

Already quite a number of merchants in adjoining towns have arranged such a window and they are proving to be effective publicity distributors. Charleroi is to be asked to take part in this campaign, not only for the Fourth Liberty Loan. but for all other succeeding loans the government may issue.

CHARLEROI HIGH PLAYS STRONG GAME WITH CONNELLSVILLE ELEVEN

No Score Made in Fast Game With Charleroi Ontplaying Opponents

MEET MONESSEN OCTOBER 12

The Charleroi High School football team opened the season of 1918 at Connellsville on Sunday and while it did not win the contest, prevented their opponents from crossing their goal line, the game ending in a tie score, 0 to 0. All the way through Charleroi played a fine game. and had it not been for an accident to Capt. Weaver in the first quarter, when he had a shoulder bone broken, it is not unlikely that our boys would have won the game. As it was Charleroi made gains almost at will, the line plunging of Brown being a feature, while Martucci made some splendid end runs. Glunt also showed up strong, and made several spectacular gains.

This being the first gameof the season a great deal of interest attached to it, because the followers of the eleven were anxious to see how the boys would stand up under the onslaughts of the Connellsville team, which is made up a husky bunch of mountaineers, and who outweighed the Charleroi team several pounds per man. In spite of this handicap, however, Charleroi was able to make excellent gains, and had it not been for the injury to Weaver would likely have won. The game was fast all the way through, and was well looked after by Herwick as umpire and Mesterzat as umpire.

Next Saturday the local team will play the Beaver Falls High at the local park and a fast game is looked for. On the 12th of October one of the most important games of the season will takeplace, when Charleroi meets their old-time rivals, Monessen at the local park. These teams did not play last season because of a disagreement over a certain player. However. all this has been fixed up and now both teams will be out for the game, which will be a fast one from start to finish.

The prospects for the local team are the best they have been for years and the showing this early in the season is away ahead of expectation. With support from the citizens of the community and from the high school students the season should be the best in years.

SLIGHT FIRE AT THE PLATE GLASS WORKS

The local fire department was called to the Pittsburg Plate Glass plant on Sunday. by a fire which for a time assumed dangerous proportions. In connection with the plate glass department the flames were soon under control and with but slight damage. The fire was on the roof of the boiler room.

FOUR CASUALTIES FROM MONONGAHELA

Four fatal casualties were reported to Monongahela people last week, of soldiers who had been killed in action in France, or died of wounds. Two of these casualties were James Rhodes who was killed on the 25th of July and Howard Fulton, who was killed on the 26th. Both boys were well known in Charleroi.

BUY LIBERTY BONDS

ELLSWORTH BAND WILL BE PRESENT

The Ellsworth band will be in Charleroi Tuesday evening, to furnish music for the mass meeting to be held on the platform opposite the Liberty Loan headquarters. Vocal music will be furnished by the male chorus under direction of Prof Daniel. and this is expected to be a pleasing feature of the occasion. D. R. Hormell is chairman of the committee to bring the speaker to Charleroi and will call for Capt. Curran at the Fort Pitt Hotel, Pittsburg, at a designated hour on Tuesday. This will be the first public meeting in the local Liberty Bond campaign. which is moving off with splendid results. Already quite a number of subscriptions have come in. and with all committees at work, greater results are expected from this time forward.

RALLY DAY WAS A GREAT SUCCESS

The Rally Day and Promotion Exercises in the Washington Avenue Presbyterian church on Sunday proved to be an enjoyable affair. The whole school met down stairs in the main Sunday school room and overflowed into the primary and junior rooms. No one knew how many were present, as the fire in the plate glass works was on about the time of tabulation and many were called there. The music was all shaded with patriotism. The Intermediates sang two numbers and received special commendation. The room was tastily decorated with banners and pendants, while the whitegates had vines festoned through them. The beginners, coming from thecradle rool made a pretty appearance. while the primary and junior classes gave a demonstration of the graded lessons. Diplomas were presented each class by Dr. F. C. Stahlman, the Superintendent. The training and direction of the promotion exercises was carried on by Mrs. G. M. Stewart. An offering of $32 was taken for mission work in the needy districts of the Monongahela valley.

DEPTH BOMBS OF SENTIMENT

One of America's most effective war inventions is the depth bomb. Designed to destroy enemy submarines it has proved to be a big success. Every time one has been dropped in the near vicinity of a U-boat the scourge has been put out of business. Since its use began there has been a decided increase in submarine mortality.

So too is the Liberty Bond an American product although patterned after its foreign brother originated for the same cause. But with us it has taken on a bigger, more tremendous importance. For not only is it filling a home need.

It is making itself felt half way round the world. Contributing to the hitting power of our allies, strengthening their morale, increasing their enthusiasm and reviving their hope of a complete ultimate triumph. It is proving to be a very revivifying tonic for their war jaded nerves.

For the Liberty Loan is essentially a depth bomb of sentiment.

If it goes over the top this time, as it must and will, with a tremendous over-subscription, it will be the greatest encouragement war weary Europe has had since the first battle of the Marne. For the message it will carry will be no more nor less than that America is in the fight to the finish, with the last dollar, to the last man, to the last ditch.

Nor will it carry any lesser message to apprehensive Germany and tottering Austria. To them it will be the fore-runner of the crack of doom, the opening of the flood gates of despair.

For all Europe, more than ever today, sees in America the hand that will write the final chapter in this struggle for world freedom; put the finishing touches upon Prussianism, or default in favor of the Kaiser.

And America will not default. She will pay her bill to world humanity, to France, to all the claims of Liberty and right and justice.

It is up to you to do your part.

To double your bond purchase.

FULL TEXT OF INSTRUCTIONS

Continued from page 1

Tenth: Hospitals, Federal Service Buildings, Public and Private Schools, Universities, newspapers, restaurants (for the sale of food only) banks, county and municipal buildings and all light and power at all times but are urgently requested to restrict their use as far as possible.

Eleventh: Saloons to be closed from 7.30 to 10:00 a. m.

Twelvth: Hotels, restaurants, as well as other places selling tobacco or intoxicating liquor, have been asked to refrain from the sale of such articles during the restricted period, so that the whole order will be made as equitable as possible.

In our district we have not only the merchants to comply with this order, but have also requested that, so far as possible keep their stores closed for business during the restricted period so that a mimimum number of employees will be required in all classes of retail business to be on hand between or before 10.00 a. m. In putting this order into effect, it should be made plain that it is subject to modification or revision as circumstances may require.

We have also been confronted from many angles with the question of the establishing of definite closing hour, as well as a definite opening hour, but up to this time no definite rulings have been made on this point, however, you are authorized to lend your full co-operation and support any effort on the part of the merchants in your county to effect an early closing hour, except on certain nights which might be disignated, such as, for instance, Monday and Saturday nights.

For your further information would state that the necessity for the issuance of this order in this district is brought about by the fact that the power companies in this district are unable to meet the demand placed upon them be the essential war material producing manufacturing plants and a serious curtailment of such productions was inevitable, unless some action of this kind was taken. It was further felt that with this order, it would materially lessen the peak load demand on the street car companies serving this district, especially as their peak load demand comes at the same time as the power demand, that is, between the hours of 7.30 and 10:00 a. m.

Results so far obtained since this order has been in effect are fairly satisfactory and it is hoped that it will meet the requirements for some time to come.

In order to make these restrictions as equitable as possible they have been made to apply to all users of artificial light and power, whether supplied from an isolated or independent power plant, or from one of the regular power distributing companies.

It is appreciated that conditions in your district may make advisable certain changes in this order and we will be glad to talk with you regarding any such changes.

Yours very truly,
U. S. Fuel Administration,
Pittsburg District.
By: D. W. Kuhn, Administrator,
H. B. Duncan, Chairman Wash. Co.,
Fuel Committee.

NOTICE

By the Board of Game Commissioners.

Notice is hereby given that it is illegal to kill a Ruffed Grouse, commonly called Pheasant, or a Ringneck Pheasant or a Virginia or Hungarian Quail, in a wild state, in the County of Washington before the open season of 1919, said County of Washington having been closed until that time by the Board of Game Comissioners to the hunting of these birds under the provisions and regulations provided for by the act of April 9th, 1915, Pamphlet Laws 73.

The Penalty for killing a Ruffed Grouse, or a Ringneck Pheasant or a Virginia or Hungarian Quail contrary to the above act and said regulations is $25.00.

This action has been taken in an endeavor to increase the above-mentioned game in your Country, and we ask that you not only obey this law yourself, but that you help in every way possible to have this law obeyed by others.

Joseph Kalbfus,
Secretary, Board of Game Commissioners. S-16-23-30

Sergeant Brown was hard to satisfy

Captives

WITH THE AMERICAN ARMY IN THE CHAMPAGNE, July 18 (United Press).—After killing or capturing the crews of four machine guns and raking a German-filled trench with his automatic rifle until the survivors surrendered, Sergt. J. F. Brown walked into American headquarters late yesterday with 159 prisoners.

"I am sorry, sir," that I was unable to bring in all I had," he said in reporting, "but four of the wounded died on me."

Brown, separated from his platoon, and the

Four machine-gun crews to his credit was a pretty fair record for one day's work. But why leave a perfectly good trench half filled with Germans? Brown didn't.

The hail of machine-gun bullets could not stop him. He was not thinking of them. Shrapnel was bursting all around him. He did not heed. His rifle was so hot he couldn't touch it, so he laid it in the hollow of his arm and kept on firing; the Huns kept on yelling "Kamerad!" and throwing down their guns. Brown forgot danger and death, he forgot that he was alone against a hundred and fifty Germans. He forgot everything but his job—Victory. And he walked proudly into camp with one hundred and fifty-nine prisoners.

We've got a big job over here, too. We must provide guns and shells and food and clothing for men with the spirit of Sergeant Brown—to send them forward to victory. Let's do our job as he did his—fearlessly, persistently joyously.

Let's lend as he fought—let's buy Liberty Bonds to our utmost

Let's Pull Together

Are we, as a community, pulling together? Or are we pulling in opposite directions? Organization is the great community need of the day. Without organization men and women are apt to sink below the level of mules. Even mules, in time of danger or panic, have been known to co-operate. They sometimes kick together. If it were given to mules to think, they would wonder at the ways of men. That men and women, living and working in the same community, should refuse to co-operate, is one of the riddles of civilization. The only benefits worth having are the benefits we can share with our neighbors. Individual benefit counts for little. It is the co-operative effort that brings everlasting good. Good roads, factories, better schools, good markets can only be secured when all pull together. Every man, woman and child in this community should give one hour each day to community work. But, don't wait for someone else to start it. There is work for you to do. Begin with yourself.
